

AGSE 2009

Applied Geoinformatics for Society and Environment 2009
Second International Summer School and Conference

July 13 - 18, 2009

Topics

- ◆ Environmental Issues, Sustainable Development, Millennium Development Goals
- ◆ Photogrammetry, Earth Observation Systems, Information Extraction
- ◆ GI Policy and Society, e-Government, Spatial Data Infrastructures, E-Cadastre
- ◆ Internet based Applications, Open Source Solutions and Tools
- ◆ LIDAR Data Analysis
- ◆ Alumni Session: Experiences and Business Development
- ◆ Cartography and Geovisualisation, 3D Visualisation

Participate in the Summer School 2009 at Stuttgart University of Applied Sciences.

- ◆ Interdisciplinary, international forum for sharing knowledge about the application of Geoinformatics with focus on developing countries.
- ◆ Twofold and participative: Professional multifaceted training and workshops about current topics in the fields of Photogrammetry, Cartography and Geoinformatics as well as presentations from the participants.
- ◆ Social and cultural events.
- ◆ Stuttgart, a vibrant, fascinating city and the state capital of Baden-Württemberg, the economic, cultural, sporting and social hub of a region located in the heart of Europe.
